TANK-G NEW PRESET

AMP		
Effect Name	**Type**	**Effect Description**
1J120_CL	Clean	Based on Roland JC-120 Jazz Chorus. Transparent and open, with warm stereo chorus, detailed highs, full mids, tight lows, wide sound stage, and excellent dynamic response.
2J900_CL	Clean	Based on Marshall JCM900. British-style tight and punchy, with slightly bright highs, robust mids, solid lows, sensitive dynamics, and natural, gentle harmonics.
3VAVE_TS	Overdrive	Based on M-VAVE ODRIVE-TS. Warm TS-style overdrive, smooth and dense, with prominent mids, versatile gain range, responsive dynamics, and a sweet, characterful tone.
4RAT_OD	Overdrive	Based on Pro Co RAT. Raw and gritty with subtle fuzz, focused mids, balanced highs and lows, slight distortion texture, aggressive character, and precise dynamic control over grit.
5VAVE_HTS	Distortion	Based on M-VAVE ODRIVE-TS. High-gain TS-style distortion, dense and smooth without harshness, warm mids, natural transition from overdrive, sweet and shimmering leads, and articulate chords.
6VAVE_DS	Distortion	Based on M-VAVE MT1. High-gain distortion with dense, heavy texture, penetrating mids, excellent note separation, tight rhythms, and clear melodies.
7MS_GV2	Distortion	Based on Marshall GV-2 Guv'nor Plus. British-style thick and warm tone, dense distortion, broad mids, solid highs and lows, excellent dynamics, well-suited for both rhythm and lead playing.
8J900_HV	Distortion	Based on Marshall JCM900. Aggressive British-style distortion, tight and impactful, highly penetrating mids, balanced highs and lows, moderate sustain, and powerful expressive tension.
9MS_HIGAIN	Distortion	Based on Marshall BB-2 Blues breaker. Bluesy light distortion, sweet and transparent, warm mids, smooth low-gain texture, high detail retention, and delicate melodic expression.
